SUCCESSFUL. THE PASSWORD IS STORED IN HASH FORMAT in the database.

- The BUY page consists of ALL THE CARS which are ON SALE. If a card is clicked, THEN THE SPECIFIC PAGE OF THAT CAR IS OPENED.
- The SELL page is visible only to the users who have logged in. The CAR DETAILS like NAME, BRAND, YEAR, FUEL, TRANSMISSION-TYPE, NO OF OWNERS, KMS DRIVEN, REGISTRATION NUMBER, PRICE, IMAGE TO UPLOAD ARE TAKEN as INPUT. All fields are REQUIRED. The carname and brand are taken as input in TEXT-BOX. YEAR and FUEL have a DROPDOWN MENU. TRANSMISSION-TYPE and No-of-OWNERS are taken as input as RADIO BUTTONS. The number of kms driven is inputted by A SLIDER. Registration number is taken as input in a text box. IF THE REGISTRATION NUMBER MATCHES WITH A CAR PRESENT IN THE DATABASE THEN AN ALERT IS SHOWN and form is needed to be filled again. If the image uploaded is not in JPEG,JPG OR PNG form then THEN AN ALERT IS SHOWN and form is needed to be filled again.
- The INDIVIDUAL CAR DISPLAY page consists of webpage of each car LINKED WITH THE BACKEND. The car IMAGE and its DETAILS are shown. The LOCATION,PHONE NUMBER AND NAME OF the OWNER are also shown. These details were taken when the user had signed up. So each car is linked with a user.
- The CONTACT US webpage can be used to send any feedback to the company.

• The login page consists of a form where the user enters their email address and password. If the email address is not found in the database, an alert is shown. If the password is wrong, an alert is shown. If both details match with the database, then the user can login and an alert is shown that login is successful. The password is stored in hash format in the database.

• The buy page consists of all the cars which are on sale. If a car is liked, then the specific page of that car is opened.

• The sell page is visible only to the users who have logged in. The car details like name, brand, year, fuel, transmission type, no of owners, kms driven, registration number, price, range to upload are taken as input. All fields are required. The car name and brand are taken as input in text box. Year and fuel have a dropdown menu. Transmission type and no of owners are taken as input as radio buttons. The number of kms driven is input by a slider. Registration number is taken as input in a text box. If the registration number matches with a car present in the database, then an alert is shown and here is needed to be filled again. If the image uploaded is not in jpeg, jpg or png form, then an alert is shown and form is needed to be filled again.

• The individual car display page consists of webpage of each car linked with the backend. The car image and its details are shown. The location, phone number and name of the owner are also shown. These details are taken when the user had signed up. So each car is linked with a user.

• The contact us webpage can be used to send any feedback to the company.

• The about us webpage shows the information of the website.

• The logout page is used to logout an user from his session.
